Margaret

I am so sorry you and Lucy & Aunt (to which the most so?) are disappointed of meeting. May it not be delayed long by your indisposition! How curious all the illness coming together! Edith too, in her journal mentions Bryan's being laid up with sick headache. I hope her packet will find all on the Crucible circuit list and that our assurance of present health may help to cheer you in any cases. We have got tolerably into harness now with our new inmates. They are out a good deal - of course - and are agreeable enough so far. Mr. Soper kept a school here a year or two ago - but now [illegible] large publishing business in London.

Do any of you know the name of
He (the R.S.) left yesterday to
return on Saturday.

With respect to the Banting
pamphlet for Clara - I think she
had better be informed (I will
mention your having it if when I write
Wk. will not be till the end of the
month) it has been procured &
received her directions about
sending it. I told Edith why we
are not to write till towards the
end of any month. I shall
be very glad to send a few lines
to the Fishers - should there be room
in this packet I will enclose some
is not in my desk. I saw in the
D. Telegraph to-day that there is
New Zealand news - but as I could
only glance at the paper while
at the photographers with Kath
gained no important informa-
tion about Henry though the
40th Reg.t & his Colonel are
both mentioned incidentally
I hope the dear fellow is safe

What is the nature of the accident that nearly killed the Emperor & when did it happen?. One of the leaders gave me that piece of information but merely alluded to what had evidently been fully described in the. The article on Fossil remains interested me very much. How so glad our Government was wise enough to purchase such interesting remains!. I fancy how your Uncle George would have rejoiced in the discovery —

I hope Ellen will soon have her fate settled in the way of an engagement! I agree with your Aunt Mary in preferring Brighton — What do you & the rest of the family

think about it?. It would be pleasant for E. to sight seal & then have, as I believe Brighton would admit, a few weeks free from care, at home. I am glad she has lost the aching in her joints - which she seems to have passed over to you! Your Aunt Mary seems to be the Rubber of the family. Give my love to that dear lady - I must close till we can meet. We are reading J. D. Schlegel's Dramatic Lectures - Extremely interesting Ventures by Miss Mennis. Adieu now -

Dearest Margaret

With fond love

Your loving Aunt
